Victims of the earthquake.

**W. F. HOLT CORPORATIONS WILL
REBUILD AT ONCE.**

All of Plants in Valley are Reported in Operation with Exception of Transformer Station at Calixto Which will be Without Electricity for Awhile.

(BY DUNCAN WIRE-EXCLUSIVE DISPATCH.)
REDLANDS, June 12.—The damage done to the buildings of the W. F. Holt Corporations in the Imperial Valley by the earthquake shocks Tuesday night was light considering the large amount of property owned, according to direct messages received by telephone at the main offices of the corporations in this city today. The corporations will rebuild on the same site where damage was done.

Charles E. Driver, private secretary to Mr. Holt, talked with the superintendent of the Imperial place, twice today. This afternoon the superintendent reported that all of the plants in operation again with the exception of a transformer station at Calexico. This was damaged and will be rebuilt as soon as the Imperial Valley Calexico will be without electricity.

At the Imperial Valley Ice and Cold Storage plant at El Centro the walls of the building were cracked, but the machinery was not damaged. The gas plant and machinery is now in operation again, the only damage being that a gas holder sprung a leak. The terminal station is safe and the big electric plant at El Centro was not seriously damaged.

All repairs were made today and the current turned on. At Holtville, no damage was done to the Holt enterprises. Other Redlands men have heavy financial investments in the valley.

W. T. Bill, one of the promoters of El Centro, received word that his business block occupied by Edgar Brothers was badly damaged, also the old El Centro Hotel. Before leaving the valley, he said that he expected to rebuild. The Delta Mercantile Building, destroyed by fire, owned by a syndicate here, will be rebuilt.

J. J. Burns, one of the large owners of the Imperial Valley Baking Company, left for the valley today. The baking building was partially destroyed, but will be rebuilt at once. Clarence E. Gage, formerly in business here, now a cotton broker in the valley, reached Redlands this morning, having left the valley after the three heavy shocks. He says it was

TO TAKE CHARGE.

**SAYS FUTILITY OF CONCRETE
WORK IS SHOWN.**

Receiver of Great Irrigation System Declares Only Damage to the Water Works was Done to Alamo Wasteway, but the Great Plume has been Left Intact.

At the office of the California Development Company, headquarters for the great irrigation system which has turned the Imperial Valley from a desert to a garden, Col. W. H. Holdreider, receiver for the company, was early advised of the damage to the works by the temblors.

According to bulletins received from his men in the field, the chief damage done was to the Alamo wasteway, an important but not vital part of the lower works. The early morning shocks seriously damaged this canal, but in the absence of major disturbances, not to a point of serious difficulty in making repairs. At Sharp's heading, key to the major part of the system, the ground around the structure was cracked and the structure itself

Aside from the danger to the wires along the line, the team were asked to give the system enough time to be disengaged. This request was verified by official investigation officers. The investigation officers will be all the time to be congratulated.

"The shocks had one good effect, at least," said the receiver. They have demonstrated the futility of concrete work for such purposes as this irrigation system. The greater part of our material is wood and it is the only building substance proof against mild earthquakes, or even moderate severe ones, for the matter of that."

The effect of the earthquake on the Imperial Valley water system was reported to Judge Myers by Col. Holabird yesterday. The report shows the Encina flume is safe. The shock at 10 o'clock yesterday did no further damage.

Col. Holabird late yesterday afternoon received the following wire

Plant of Imperial Valley
Frecked, Considerable D
Worth and Other Hotels
Suffered Injuries to Some

[BY DIRECT WIRE—E]
CENTRO, June 22.—No definite figures can be obtained of the damage caused by the earthquake, but a fair estimate apportions the loss between the various towns as follows:
Tehuacan, \$600,000; Calixtco, \$200,000; Toluca, \$50,000; other towns, including Mexico City, \$50,000. Some companies and business men freely say the total loss will exceed \$1,500,000.

The W. F. Holt enterprise suffered heavily. An official of the Delta Mercantile Company, of which Mr. Holt is president, says the loss would be between \$100,000 and \$150,000. The damage to the Imperial Valley Power Company, the Imperial Valley Gas Company and the other companies which Mr. Holt owns in the company will probably amount to \$100,000.

The plant of the Imperial Valley Power Company, in which Mr. Holt is interested, is sorely wrecked. The loss is estimated at \$25,000. One of the largest sugar plantations in the Imperial Valley Oil and Cotton Company, according to J. H. Spear, manager. The loss will be \$45,000. The building plant will be rebuilt and repaired.

DAMAGE TO HOTEL.
The damage to the Barbara Worth hotel will range between \$20,000 and \$30,000. Slight cracks are apparent in the face of the building, the floor is cracked and the ceiling has in places tumbled. Other losses estimates at El Centro are as follows:
Shelby Mills, \$10,000; Newark Company, \$1,000; Masonic Temple, \$15,000; Security Savings Bank, \$5000; Broadway Garage, \$500; Dunaway building, \$25,000; The Drug Co., \$10,000; El Centro street Grammar School, \$10,000. At El Centro, Princess and Leannex stores suffered losses which may run to \$1,000. In fact, the hardy, a brick or block construction which seldom without damage in some de-

In Calexico, the two story Thing & Thing building was injured, causing a loss of probably \$30,000. The Glendale National Bank suffered an approximately \$10,000. The Thatcher, Union, Planters and Calexico Hotels were badly damaged and repairs hereinafter will probably amount to \$50,000. The damage to the Brooks

To Rebuild the Cities.

The damages were heaviest, the
the Centro being estimated at
that of Calexico approxi-
mately 90,000, and Heber over \$50-
000. Hawley, Holtville and Imperial
escaped with slight damage.

Rivers and Calipatria barely felt
the shocks. They were so far removed
from the center of the disturbance
that no damage resulted at either
place.

REPORTS OF LOSS

That a great series of fires did not all to the horror of the disaster is due to the quick action of R. J. Rivers, operator at the Holton Power Company's station in El Centro. When the earth commenced trembling at 9 o'clock last night, Rivers sprang to the giant switch and threw off the power, plunging El Centro, California

the surrounding country in darkness. But before he did so the wires of the great plant of the Delta Mercantile Company in El Centro became entangled and caused a fire that totally destroyed that plant. The loss of the wholesale grocery house is estimated by officials at \$150,000.

At the same time the business block owned by Thine & Co., situated in Mexico, burst into flames, causing damage to the extent of \$25,000 before finally put under control.

of the series of shocks that rocked the valley during the night the first was the more damaging. The first shock came at 8:05 o'clock, the second at 8:55 o'clock, the third at 9:10 o'clock and the fourth a little after 10 o'clock. Succeeding shocks were less in force, but continued from time to time throughout the night.

The residents of El Centro had just retired out for their evening walks when the earthquake began. The

...ing and riding in the cool of the eve-
ning when the earth rocked and trem-
bled. For an instant the residents re-
mained stunned. Then, as walls began
to tumble and buildings crack, pan-
ic and confusion reigned. Women screamed
and fainted, men ran about shouting
wildly, and innumerable runaways oc-
curred throughout the city, and soon

lives of many. To add to the misery, the city, as stated, was immediately plunged in darkness. Some ninety persons, guests of the Marlborough Hotel, became panicked and a near riot ensued. The ground floor of the hotel threatened to be in on them. In some manner the guests jammed, and it was not until the men had made a way out that the frightened guests could escape the darkened streets. Damage to the hotel was estimated at approximately \$100,000.

The residents of El Centro had just recovered from the first shock and started to straighten out the damage when the second shock came. The shock was so strong that a passenger train bound for Los Angeles dived like a boat. Throughout the frightened residents stayed away from the buildings, cowering in fields or on the lawns, preferring blanket and safety to the fear of what might occur.

ADJUDICATED DISCLOSED.

When the bright sun arose over the morning a scene of ruin and disaster was disclosed. The is a mercantile building in the city that is not damaged to some degree. Walls are down and the streets are with bricks. In some cases buildings were smashed into a mass of brick and framework. Ropes were placed to keep the residents from falling beneath porticos and roofs appeared as if they were falling.

COLORADO MILITIA WEAK.

Nine Companies of National Guard Stricken from List and Several Others are Placed on Probation. (BY A. P. NIGHT WIRE.) WASHINGTON, June 23.—Nine companies of the Colorado State Militia were stricken from the list of National Guard organizations recognized by the War Department today because of deficiencies in recruiting, organization and equipment. Several other companies were placed on probation pending their compliance with the requirements of the Federal law. Those dropped from the list, five in the First Regiment and four in the Second, will have their arms and equipment withdrawn, and no longer will receive financial support from the Federal government.

RUSHING WORK ON ALASKA LINE.

LIEUT. MEARS SOON TO USE TWO THOUSAND MEN.

Declares by Utilizing Water Transportation Ground Can be Attacked at Several Points and Camps will be Established Along Tidewater Close to Right of Way. (BY DIRECT WIRE—EXCLUSIVE DISPATCH.) WASHINGTON BUREAU OF THE TIMES, June 23.—The first description of the inauguration of work on the big government-owned-Alaskan railway was received by Secretary of the Interior Lane today in a report from Lieut. Mears, who is on the ground supervising the construction. One of the most important features of the work, according to Lieut. Mears, is the hiring of men and the establishment of camps. Commenting on this phase of the undertaking, he says: "We have now contracted with about 400 station men and are employing about 100 men handling the terminal work and constructing wagon roads. I expect to rapidly increase this force to 1500 or 2000 men as fast as material and supplies can be shipped in here to accommodate that number."

RELIEF TRAIN TO YAKU VALLEY.

WASHINGTON, June 23.—In a wireless message to the Navy Department tonight Admiral Howard said he had been informed that a relief train had succeeded in passing through the Yaku Valley, carrying 3000 troops to Esperanza to protect foreign settlers who have been threatened by Indians.

HEALTH ORGANIZATION.

Although local public health organizations are active in the West, it is still the weakest part of the defense against disease, according to J. W. Kerr, of the American Public Health Association, who is here on a tour of inspection. He said that the health work in the West is in a backward state, and that the health work in the East is in a forward state. He said that the health work in the West is in a backward state, and that the health work in the East is in a forward state.

ARRANZA WILL NOT TREAT WITH VILLA FOR PEACE.

Chief of Mexican Forces Declares He will Accept No Compromise with His Opponents but will Continue His Plan to Crush Them—Declares He will Soon Dominate the Situation. (BY A. P. NIGHT WIRE.) Gen. Villa and another from Gen. Carranza denying that any friction existed. The Villa message, dated yesterday, said: "You can make a wide and emphatic declaration that the relations between Gen. Carranza and me are not the slightest disagreement between us. Learning that a member of Gen. Carranza's family was ill, I gave the general a leave of absence to hasten to the bedside."

FIRE UPON TRAIN.

From Vera Cruz Consul Canada reported a train on the narrow-gauge line south had been fired on Monday and sixteen persons were reported killed. He also reported that the railway from Vera Cruz to Mexico City had been cut, preventing the leaving of two troop trains.

MEXICO SOUNDS DEPTH OF CHAOS

Seemingly of Law and Order Practically Vanishes. Constant Pillage by Soldiers has Depleted Crops. Conditions now Worst Known in Last Five Years.

(BY THE STAFF OF THE WASHINGTON BUREAU OF THE TIMES, JUNE 21.)—Dispatches to the State Department today from the Mexican frontier indicate that the situation in that country is becoming more and more chaotic as the summer months advance. The reports are that the constant pillage by soldiers has depleted the crops, and that the conditions are now the worst known in the last five years. The situation is particularly serious in the Yucatan and Vera Cruz, where the reports are that the soldiers are not only pillaging the crops, but are also killing the people. The State Department is now receiving reports from the Mexican frontier that the situation is becoming more and more chaotic as the summer months advance. The reports are that the constant pillage by soldiers has depleted the crops, and that the conditions are now the worst known in the last five years. The situation is particularly serious in the Yucatan and Vera Cruz, where the reports are that the soldiers are not only pillaging the crops, but are also killing the people. The State Department is now receiving reports from the Mexican frontier that the situation is becoming more and more chaotic as the summer months advance.

Even in the richest agricultural regions the reports are that the crops are being destroyed by the soldiers. The reports are that the soldiers are not only pillaging the crops, but are also killing the people. The State Department is now receiving reports from the Mexican frontier that the situation is becoming more and more chaotic as the summer months advance. The reports are that the constant pillage by soldiers has depleted the crops, and that the conditions are now the worst known in the last five years. The situation is particularly serious in the Yucatan and Vera Cruz, where the reports are that the soldiers are not only pillaging the crops, but are also killing the people. The State Department is now receiving reports from the Mexican frontier that the situation is becoming more and more chaotic as the summer months advance.

NINETEEN KILLED ON TRAIN. Nineteen persons were reported to have been killed when a train carrying passengers and mail between Vera Cruz and Lathrop was derailed. The train was carrying passengers and mail between Vera Cruz and Lathrop. The train was derailed, and nineteen persons were reported to have been killed. The train was carrying passengers and mail between Vera Cruz and Lathrop. The train was derailed, and nineteen persons were reported to have been killed.

Simplest asserted that the situation in the Yucatan and Vera Cruz is becoming more and more chaotic as the summer months advance. The reports are that the constant pillage by soldiers has depleted the crops, and that the conditions are now the worst known in the last five years. The situation is particularly serious in the Yucatan and Vera Cruz, where the reports are that the soldiers are not only pillaging the crops, but are also killing the people. The State Department is now receiving reports from the Mexican frontier that the situation is becoming more and more chaotic as the summer months advance.

Hammond Interests. John Hays Hammond, the principal American owner of the copper mines in the Yucatan and Vera Cruz, is now receiving reports from the Mexican frontier that the situation is becoming more and more chaotic as the summer months advance. The reports are that the constant pillage by soldiers has depleted the crops, and that the conditions are now the worst known in the last five years. The situation is particularly serious in the Yucatan and Vera Cruz, where the reports are that the soldiers are not only pillaging the crops, but are also killing the people. The State Department is now receiving reports from the Mexican frontier that the situation is becoming more and more chaotic as the summer months advance.

THE CITY
AND ENVIRONS.

EVENTS BRIEFLY TOLD.

Picnic Postponed.

The picnic of Sebastian precinct workers, scheduled for tomorrow, has been indefinitely postponed. Precinct captains will be notified by postcard of new time and place.

Bartlett-Logan Reception.

A reception to its department officers will be tendered by the ladies of Bartlett-Logan Women's Relief Corps Saturday evening in Patriotic Hall, Hall of Records. Members of all patriotic orders, especially the G.A.R., are invited.

Give Morality Play.

The pupils of the McKinley School presented a creditable rendition of a "morality play" called "Everyday" in the Normal School auditorium yesterday afternoon. The play was written by Miss Clara Bartram, one of the teachers. A large audience of parents and friends applauded the effort.

New Citizens' Civic Club.

At a meeting tonight of the New Citizens' Civic Club at the Los Angeles High School, Supervisor Woodley will speak on "Our State Legislature" and Dr. F. Levin on "Scenery and Climate of California in Summer and Winter as Compared to Switzerland and Italy." Light refreshments will be served.

Tourist Parties Coming.

One hundred and twenty eastern tourists will arrive in Los Angeles tomorrow in two parties from Boston to remain for three or four days. One party consists of sixty-five and the other of fifty-five. They will be met by their headquarters at the Clark.

Honoring New Bishop.

Bishop Joseph F. Glass will be the guest of honor at the Newman Club banquet this evening at the Clark. Bishop Conaty and other members of the club will speak. Bishop Glass will leave soon to assume his new duties in Salt Lake City.

Bicycle Memorial Service.

Services in memory of the late A. C. Billocke, a Lantana victim, will be conducted tomorrow morning at 11 o'clock in St. Paul's Pro-Cathedral, Olive street, opposite Central Park. Many friends of the departed millionaire philanthropist are expected to attend. Bishop Glass will have charge of the services, assisted by Rev. Dr. Wootton of South Pasadena.

Cellist is Naturalized.

Asel Simonsen, Danish cellist, who has been in the United States eight years and in Los Angeles five, exhibited pride yesterday when he notified his friends in the Blanchard Hall studios that he had become a naturalized citizen. He has been solo cellist in the Los Angeles Symphony Orchestra for three seasons and is well known in musical circles in Los Angeles.

Roof Garden Reception.

Trinity M. E. Church, South, will give a reception to the members who have joined the church since the completion of the new building at Ninth street and Grand avenue tomorrow evening on the roof garden of the church. Several attractive booths, one of them representing the interior of a southern home, will be part of the special equipment.

To Teach Playground Work.

A new course in playground supervision has been added to the Polytechnic Summer School curriculum to enable the teachers and high school graduates expecting to take up this work in connection with their school duties to secure the proper training. F. R. Hahnwalt, supervisor of physical training in the city schools, is in charge. The course will include lectures and practical work on the field in all the important games and principles involved in properly conducting a school playground.

Informal Smoker.

The Chamber of Commerce will hold an informal smoker tonight at which the subjects discussed will be of exceptional interest to business men. All members and their friends are invited. Stanley L. McDaniel, chief secretary of the National One-cent Letter Postage Association will tell of the campaign being waged for a reduction in the rate of postage. Representatives from the Joint Bureau of Appraisal will explain the bureau's method of valuing real property for the 1915 tax assessment. Watson's Royal Scotch Pipe Band, of which Dr. Edward P. Bailey is the newly-elected president, will be an added attraction.

University Registration.

Registration for the summer session of the University of Southern California will begin this morning at the Liberal Arts Building, Thirty-fifth street and University avenue. A large registration is expected. The students to include educators from the East who are visiting the exposition. Prof. Frank J. Klingberg and Prof. Carlos Brannan, the latter of the University of California, will give the first courses under the Carnegie Endowment for International Peace. The former will deal with the European war and the

latter with Pan-American relations. Dr. Ernest Carroll Moore of Harvard University, formerly superintendent of the Los Angeles city schools, will give work in study methods and school administration.

Socks Her Husband.

Search for her husband, William W. Nickell, Jr., has been started by Mrs. Odella Nickell of Corona, who was married November 2, 1914. She is destitute at the home of J. D. Coker, R.F.D., box 63, and has had no information from the husband since he departed unexpectedly.

New Circlonian Constitution.

A meeting of the Circlonian Club, which will be held at the Clark at noon today, will be devoted to a discussion of the new constitution recently submitted by the Judiciary Committee for consideration. A. G. Soule, treasurer of the club, will preside. Reservations have been made for 125 members.

Montessori Lecture Today.

Dr. Montessori will give a lecture and demonstration of her work at the Boyle Heights school tomorrow afternoon at 2:30 o'clock. The public is invited. She has spent two months here and is leaving shortly to spend a month in San Diego and another in San Francisco.

POLISH RELIEF
ENTERTAINMENT.FINE PROGRAMME SCHEDULED
FOR SATURDAY EVENING;
AID WAR SUFFERERS.

For the relief of the nation that has suffered more than all others, a nation that is forced to fight against itself and because of the violence of the warfare in the eastern European zone is being practically exterminated,

members of the Los Angeles colony of Polish people will give a benefit entertainment Saturday evening at the Columbus Auditorium on South Flower street. The affair is under the management of the American-Polish Relief Committee of Los Angeles, which is affiliated with the national organization which has for its president William Howard Taft.

The local officers are Col. John Sobieski, Mrs. Mary Gilhausen, Frank Balcerak, J. Romanowski, W. A. von Pavlovski, Olga Bukowska and Roman Muszkiewicz. A committee of patron and patronesses is made of prominent citizens in accord with the relief work, and are the following: Mrs. L. A. Blanchard, Edward Bowes, Mrs. Edward Bowes, O. P. Clark, R. H. Bishop, Thomas J. Conaty, Signor Ettore Compagni, Mrs. R. L. Craig, Dr. C. B. Dickson, Miss Zona Gale, Miss Ina Goodwin, O. T. Johnson, Mrs. Clara de Kwaensky, D. M. Linnard, Mrs. D. M. Linnard, Judge Paul J. McCormick, Louis Caputi, George Harrison Gray Oils, James Overton, Elmer Wright Peak, Miss Skowronski, Mrs. John Sobieski, Miss Ella True.

The programme is largely musical, interspersed with a number of the striking Polish dances, the majority of these by local Polish children. The children's national dance, the Mazur Polish dance, in which four couples take part, the Wengierka dance, are some of those to be presented. Worth Harris and Mark Fenton, who were for years with the Mme. Modjeska company, are active in the arrangement of the programme. The music will all partake of the land in which it originated, and the orchestra playing it is under the direction of J. J. Koszowski.

NORMAL SCHOOL PLAY.

"The First Lady of the Land" is Given by Members of the Senior Class.

"The First Lady of the Land," a romance of Aaron Burr, James Madison and Dolly Todd, by Charles Frederic Niedlinger, was given Tuesday night by the members of the senior class of the Los Angeles State Normal School under the direction of Theresa L. Cogswell. Men were used in the production for the first time in the history of the Normal School. The play opens on the eve of Jefferson's election to the Presidency. The plot turns around the duel between Aaron Burr and Alexander Hamilton and the love of James Madison and Burr for the charming Dolly Todd. It deals with Burr's wild scheme to conquer Mexico and his subsequent impeachment for treason. Music was furnished by the school orchestra. A large audience attended. This will be commencement day at the Normal.

The action of S.S.E., the famous blood purifier, is direct from the moment it enters the stomach. Unlike food that must be acted upon by the digestive juices, S.S.E. goes at once into the blood, and in less than five minutes has traversed the entire circulation. It is rapidly absorbed into the blood stream, and it is like giving the blood a thorough bath to overcome eczema, blood poisoning, boils and other eruptive conditions. It does not harm any part of the system. It does not lodge in the joints as do mercury, arsenic and other minerals frequently to be found in blood remedies. It is a natural medicine for the blood, just as essential to health as food. Wherever you go you are sure to meet some one who used S.S.E. for the blood and is a willing witness to its sterling reputation. Get a bottle today. It will do you good. Write to The Swift Specific Co., 104 Swift Bldg., Atlanta, Ga., if the directions with the bottle do not fully cover your case.

THE WEATHER.

(Official Report.)

LOCAL OFFICE, U. S. WEATHER BUREAU, Los Angeles, June 23.—(Reported by Fred A. Carpenter, Local Forecaster.) At 5 o'clock a.m. the barometer read 30.02; at 8 a.m., 30.00. Thermometer for the corresponding hours showed 54 deg. and 70 deg. Relative humidity, 5 a.m., 51 per cent.; 8 a.m., 64 per cent. Wind, 5 a.m., south, velocity 1 mile; 8 a.m., southwest, velocity 7 miles. Highest temperature, 73 deg.; lowest, 50 deg. Rainfall for month, 17.05 inches. Accumulated to sea level.

WEATHER CONDITIONS.—The area of high pressure (centered over the Pacific coast) has been responsible for the prevailing light and variable winds. The low pressure (centered over the Gulf of California) has been responsible for the prevailing light and variable winds. The weather is generally clear and pleasant.

WEDNESDAY MORNING.
FINANCE FARMS
LIKE BUSINESS.
Hunt Advocates a Sort
of Bonded Basis.
Otherwise the American
Farmer will Perish.
Address Feature of
Daily Programme.

There are 1,000,000 young women who are going to live with them and rear families.

How are these young men to secure the \$4,000,000,000 worth of capital to possess 1,000,000 farms? When 160 acres of fertile land could be obtained free, we did not need to ask these questions. Now they are the most serious questions before the American people. It is all very well to say that the young men should go to work to earn money to buy their farms, they have often reached an earning capacity which they do not wish to sacrifice and have reached a time in life when it is not advantageous either for their families or themselves that they should begin farming. The

land credit system would solve the problem. Take the case of the farmer himself. A farmer marries between the ages of 20 and 24, has four children before he is 40 and dies at 45, leaving a farm worth \$16,000. He has one son who is ready to assume the management of the farm. What must that son do? Having inherited one-fourth of the property, he must assume the indebtedness of the other three heirs, or an obligation of \$12,000. If there were a system of finance by which he could spread the payments over thirty or even twenty years, he could work his way out. Under present conditions, a sale often occurs and the land passes into other hands. Sometimes it is a tenant that steps in. In any event the change represents the passing of the old order and the substitution of a new and the

disrupting generation after generation of the community life and traditions. "It is an established economic fact that farms must be recapitalized at least three times in a century. There is no escaping this fact. This problem of recapitalization of farms has been met in at least fourteen other countries. High-minded but impulsive people have discussed seriously the bringing of Belgians to the United States and placing them on the land. Any industrious Belgian farmer can borrow money at 4 per cent, and have sixty years in which to pay it back. "While the leading nations of the world are in competition to retain and increase existing population, we sit tight in smug content promoting a system of finance and land development which leads inevitably to our own extinction without one gun ever being fired."

One of the special features of entertainment of the visitors in Venice was an exhibition of the fire department, under command of Chief Hubbard, showing the efficiency of its system of fighting fires with salt water. Six streams were played from hydrants in the center of the city and all of them being directed against a smart wind from the ocean made a remarkable showing. It was pointed out that salt is one of the best fire extinguishers known and being used in great volumes of water, gives to Venice one of the best means of fire protection in the country.

Half a dozen diving girls gave the visitors a few thrills in the plunge and were applauded generously. Following a pleasant stay of two hours, the party left for Ocean Park, enjoying the rare privilege of driving along the paved strand, patrolmen keeping the way open. It seemed that everyone in Ocean Park turned out to greet the visitors and all expressed delight with the hospitality.

While there was no reception committee in Santa Monica, the streets were open to the visitors through and much pleasure was gained from the beautiful scenery and artistic homes. Arriving in Hollywood the visitors were led through the principal streets, taking a circuitous route which included a drive on the main business street, thence to the foothills and back to the Hollywood High School. Here the automobiles were brought to a stop and the occupants were showered with bouquets and post cards given out by the pretty High School girls.

The driver of each automobile was kept busy answering questions as to real estate values, distances, etc., and it is the opinion of the Realty Board that the trip will result in valuable returns to Los Angeles.

Charles S. Gerth, general manager of the Gerth's Realty Experts, etc., New Orleans, said the trip and other entertainment features provided during the week surprised him beyond his power of expression. "I have been to the other conventions of real estate men, political conventions and other similar gatherings but I have never seen anything that could be compared with this," he said. "There is no question but that I will be a booster for California in the future and from now on, I am sure Los Angeles will get more favorable recommendations from now on than it has ever had. My but I wish the next convention were to be held here. In fact, I would like to stay here all the time."

UNDELIVERED TELEGRAMS.
There are telegrams at the Western Union for George V. Beane, C. J. Miller, L. C. Davis, E. L. Edholm, Pearl Eriand, F. E. Horner, Charles K. R. Kerr, J. R. Kirkland, Pauline Labonte, Mrs. Robert Laughlin, A. F. Milligan, Mrs. Jane Nash, Cathryn Nunn, Rev. J. R. Richards, C. C. Royall, Ygnacio F. Sahagun, William Smith (cable), Miss Grace Smith and James Tierman. The Postal: Henry Porter, Miss W. Baker and Mrs. C. F. Roberts.

Three of the charming hostesses, who assisted in making a brilliant affair of the lawn fete given for the visiting realty delegates and their families last evening.

land credit system would solve the problem. Take the case of the farmer himself. A farmer marries between the ages of 20 and 24, has four children before he is 40 and dies at 45, leaving a farm worth \$16,000. He has one son who is ready to assume the management of the farm. What must that son do? Having inherited one-fourth of the property, he must assume the indebtedness of the other three heirs, or an obligation of \$12,000. Under present conditions, a sale often occurs and the land passes into other hands. Sometimes it is a tenant that steps in. In any event the change represents the passing of the old order and the substitution of a new and the

NOTABLE THIRD DAY OF THE REALTY CONVENTION.

THE third day of the national real estate convention yesterday was a series of notable events. The speaking programme of the morning was of a brilliant order and brought forth discussions of interest and importance on the floor of the auditorium. The delegates spent the afternoon motoring with their hosts, the Los Angeles realty men, to the various beaches of Santa Monica, taking in the whole shore line from Venice to Santa Monica Canyon and returning by way of Hollywood. The day closed with a unique and beautiful reception at Chester Place.

The first talk on the morning programme was a discussion on the subject of "Rentals" by George H. Taylor, president of the Chicago Real Estate Board. Mr. Taylor aptly said that the term renting meant in the bygone feudal days the rendering of service by a tenant to the landlord, whereas today the landlord rendered the service. Competition among those building income improvements, he pointed out, had made renting on systematic and scientific lines a necessity. He commended the national association for its efforts in behalf of the enforcement of fair methods in the leasing business.

Harry Goldstone of the Chicago Real Estate Board and a discussion on "The Possibilities of a Valuation Committee." A. C. Danenbaum of Minneapolis, who was to have had the subject, being absent, Mr. Goldstone answered a rapid fire of questions in the able manner of an expert, and cited many examples to prove his contention that the competent man called in for appraisal work was worthy of his hire. He deplored the work of bunglers who served for small fees the belief that the time would come when no American city would buy a foot of property for any purpose without first consulting the experts of the up-to-date realty boards.

George Wharton James of Pasadena discussed the value of "Sentiment in Real Estate." Sentiment and romance, he declared, were things that up-to-date real estate man could not afford to ignore. A discussion on "Ethics" was led by J. J. Epstein of St. Louis. In the absence of E. Orris Hart of Chicago, Mr. Epstein presented a new code of ethics that had been framed by a special committee of the national association and which will probably be offered for adoption today.

REALTY MEN SEE FINE DISTRICTS.

TOUR OF CITY'S ENVIRONS IS REVELATION TO MANY.

Automobiles Take Several Hundred Visitors to Beaches and Hollywood—Crowds Line Streets to Greet Party—Reception at Venice Includes Fire Fighters' Exhibition.

Several hundred of the visiting real estate men saw the vast area of Southern California during an automobile trip yesterday afternoon, and when told it was merely a good sample of the country, all declared they will never be satisfied until they can return to Los Angeles and make a tour of the whole Southland. One man declared, "It is so much grander than I had anticipated that honestly I can hardly believe my eyes. Believe me, when I get back East I am going to sell everything I have and return here to live permanently."

The trip, which was under the direction of the Los Angeles Realty Board, included a visit of two hours at Venice and a ride through Ocean Park, Santa Monica, Sherman, Sawtelle, Hollywood and the exclusive and beautiful Wilshire district. Starting from Trinity Auditorium at 1:30 o'clock, the jolly sightseers were returned to their hotels by 4 o'clock, giving them ample time to prepare for the big fete at Chester Place last night.

Officials of the cities visited were just as generous as they are in Los Angeles.

Angels. If there are any keys to any of those cities that have been thrown away before the real estate boosters arrived. The automobiles were given the right of way over the principal thoroughfares everywhere and public spirited citizens lined the sidewalks to welcome the visitors.

In Venice Mayor Cheney waited in charge of the reception. He was assisted by City Trustees Smart, McCowan and Pinkerton; J. J. Lewis, president of the Venice Realty Board; Andrew S. Lee, president of the Chamber of Commerce; Abbot Kinney, Justice W. A. Rennie, Harold J. Daly and other citizens.

One of the special features of entertainment of the visitors in Venice was an exhibition of the fire department, under command of Chief Hubbard, showing the efficiency of its system of fighting fires with salt water. Six streams were played from hydrants in the center of the city and all of them being directed against a smart wind from the ocean made a remarkable showing. It was pointed out that salt is one of the best fire extinguishers known and being used in great volumes of water, gives to Venice one of the best means of fire protection in the country.

Half a dozen diving girls gave the visitors a few thrills in the plunge and were applauded generously. Following a pleasant stay of two hours, the party left for Ocean Park, enjoying the rare privilege of driving along the paved strand, patrolmen keeping the way open. It seemed that everyone in Ocean Park turned out to greet the visitors and all expressed delight with the hospitality.

While there was no reception committee in Santa Monica, the streets were open to the visitors through and much pleasure was gained from the beautiful scenery and artistic homes. Arriving in Hollywood the visitors were led through the principal streets, taking a circuitous route which included a drive on the main business street, thence to the foothills and back to the Hollywood High School. Here the automobiles were brought to a stop and the occupants were showered with bouquets and post cards given out by the pretty High School girls.

The driver of each automobile was kept busy answering questions as to real estate values, distances, etc., and it is the opinion of the Realty Board that the trip will result in valuable returns to Los Angeles.

Charles S. Gerth, general manager of the Gerth's Realty Experts, etc., New Orleans, said the trip and other entertainment features provided during the week surprised him beyond his power of expression. "I have been to the other conventions of real estate men, political conventions and other similar gatherings but I have never seen anything that could be compared with this," he said. "There is no question but that I will be a booster for California in the future and from now on, I am sure Los Angeles will get more favorable recommendations from now on than it has ever had. My but I wish the next convention were to be held here. In fact, I would like to stay here all the time."

Lawn Fete for Visitors.

(Continued from First Page.)

his long years, because E. L. Doheny, with whom he prospected forty years back in the mountains of New Mexico and Arizona, was able to show a nation just what California can give its guests in the way of entertainment.

Visitors began to arrive as early as 7 o'clock, before the myriads of Japanese lights and the hundreds of great reflector lamps were turned on. And tired visitors were departing when the mocking bird began to hail the approach of the coming day from the tops of the tall trees about the grounds. They had danced and watched the dancing on the meadow strewn streets to the blare of four great sixty-piece bands, and they had sated in delight on the fairy fancies of light-tow, summer-garbed maidens who gambled over the green sward beneath a spreading rubber tree. They had listened to strange Indian lyrics sung from the back-ground of a wicket in rich contralto voices that carried far beyond the narrow St. James Park as they throbbed the notes of a love melody or crooned the lullaby of an Apache squaw. They wandered enraptured among the great bowers of flowers and ferns, brilliantly illuminated for the occasion. The night, turned into day, disturbed the blossoms, and the beautiful orchards, the floral wonders were ablaze with lights that glinted on the sheening surface of the plume.

FRUITS AND FLOWERS.
Frank Waggoner must have rubbed his hands with pride and glee over the fruit products of the Southland and the tables and stands for the selection of visiting appetites. All afternoon, Arthur Dodworth, assisted by a group of expert fruit decorators, Mrs. Garland, Mr. and Mrs. Do-

heny, Richard Schweppe and others, heaped oranges, lemons, peaches, plums, cherries, berries, apricots, pineapples and a dozen other products of the soil in tasty and symmetrical designs. And all evening the visitors pulled apart the designs and consumed these treasures of orchard and bush.

Booths tucked away among the rose arbors, the coral trees, the bowers of sweet jessamine and honey-suckle harbored McCormack's Wines of liquid character, the real drink of the Southland, orange juice. Dainty attendants, clad in rich oriental garments, assiduously employed their minutes.

Introductions in this night of nights were unnecessary. There was none to intrude who had no right to do so. The gates were guarded and every ticket and invitation was closely scanned. President Thomas Shallock of the association, John Kane, Thomas Ingersoll, Byron Hastings and the other officers were made to feel at home by everyone.

While the street dancing progressed on the asphalt that had been washed, brushed and almost polished, minstrelsy in costumes of bygone centuries, troubadored through the crowds, rendering many and quaint melodies of a dim past. For those whose spiritual senses were surfeited there were sandwiches, tea, ices and cream. Maitre d'Hotel Nixie of the Alexandria and a corps of assistants, all in immaculate white, were in charge of this department. The kitchen stood at the rear of the Norman Bridge home and was one of the places of much attraction.

In addition to the drives of the many real estate operators belonging to the local board, the society leaders of the city were all on hand to assist in the reception and entertainment lines. Among them were Mrs. William May Garland, W. W. Mines, M. J. Connell, F. W. Flint, Jr., Randolph H. Miner, Joseph P. Sartori, Russell McD. Taylor, Harold S. Cook, R. W. Schweppe, Frank Griffith, W. A. Clark, Jr., E. A. Horner, William Barlow, Granville MacGowan, Rea Smith, Guy Cochran, E. A. Bryant, A. L. Cheney, J. D. Foster, Earl C. Anthony, H. C. Lee, J. Kings-

SPECIAL NOTICE
Until July 1 we will take 8-month subscriptions to Pictorial Review Magazine for 59c
No phone nor mail orders
Two Special Features in Suits \$14.50 and \$24.50
Here's an excellent opportunity to profit by our reduced prices on special lots of suits. You can finish the season smartly dressed and at a modest expense by selecting one of these suits—you'll find many especially desirable for Exposition wear.
Lot 1 50 Suits Specially Priced \$14.50
Late models made from a diversity of fashionable materials. Shown in various styles, including the fashionable box coat and Norfolk models, also others with set-on peplum finished with belt. Remarkable values at \$14.50.
Lot 2 65 Suits Specially Priced \$24.50
Nearly all of our higher class suits are included in this special assortment. They represent the season's smartest styles and comprise suits of silk poplin, gabardine, serge, mannish materials, black and white stripes and checks. You'll find both dressy and plainer models. Such substantial savings as these represent, are worthy of an early effort to secure.
Velvet and Felt Sport Hats Are in High Favor
Mid-Summer Millinery
Capricious Dame Fashion has decreed the use of wintry materials like velvet and felt, for midsummer sport hats. They are decidedly smart and becoming. The accompanying sketch on the left illustrates a very modish sport hat at \$10.50, developed in panne silk velvet. The wide brim is stitched, gracefully bent, giving decidedly chic lines, and is faced with white hemp. Shown in fashionable colors for wearing with the ultra-stylish silk sweaters. Many other styles and qualities in new sport hats; priced from \$2.50 upwards.

LOS ANGELES (Loco Ahoy-hay-ah)
Entered as Second-Class Matter of Class II.
Postoffice at Los Angeles, Cal.
Acceptance for mailing at special rate of postage provided for in Act of October 3, 1917, authorized on June 24, 1913.

TRND OF THE FINANCIAL NEWS.
CHIEF EVENTS OF YESTERDAY.
(At Home.) Coal-carrying railroads and most of the transcontinental lines were eagerly sought by investors and a general rise in the value of their securities resulted. The war situation in Galicia had the effect of depressing international issues, but all purely American stocks and bonds were stronger, indicating our practical aloofness from European interference. Norway bought 1,125,000 bushels of our wheat for export. The price of flour has been reduced 45 cents a barrel during the past two weeks.
(Abroad.) London was a free seller of Americans, but this movement had more effect on Canadians than anyone else, Canadian Pacific dropping to its lowest since 1908.
(For details, see financial pages.)

WHEN THE BUGLE CALLS.
That bugle call ringing through the streets of peace is not a call to arms, but to baseball. Washington Park is a great center for mobilization. The pleasant thing about going to the baseball front is that you know you will come back.

PUTTING UP A GOOD FRONT.
The desire of most people is not so much to achieve as to shine. They are not so anxious to do something as they are to have others think that they amount to a lot. Those who actually do things are very slightly concerned about public credit.

A DRY STATE.
A West Virginia man offers to put up a \$25,000,000 bond as a guarantee that he will pay off the entire State debt of more than twelve millions in ten years. If he is granted the exclusive privilege of selling liquor there. That is a compliment to the West Virginia thirst.

CATERERS THRIVE.
Los Angeles people are just eating themselves to death. Try to get something in the line of food at noon some day and see what a crush you are caught in. One of five hundred people certainly looks like prosperity at meal time.

TURTLES FOR PETS.
In the metropolitan life of Los Angeles there are many ways for getting on. We know one man who makes a living by selling turtles. They are little ones, with green bodies and red gills and are meant for pets. You can put them in with the gold fish and, being vegetarians, they will not bother the fish. Their salesman, who is a Japanese, denies that he is from Turtle Bay.

KEEPSAKES.
A special train of railway mail association men will be in Los Angeles next week. Maybe they will teach us all how to remember to mail letters before they have become ancient history. The average man could learn a lot about his own past by looking at the unmailed letters in his pockets. We can understand that one becomes attached to these letters after carrying one three weeks.

ROBBING THE BIG GARDEN.
Don't be pigs about the yucca plants in the hills. These beauties are now lifting their stately white plumes from a thousand bright summits. Every now and then we see an automobile on the streets, literally buried beneath its burden of silver bloom. It is all right to cut one or two of the stalks, but it is a pitiful waste to simply mow down these white sentinels which are far more beautiful as they stand gleaming in the sun. The people ought to treat all public property as they would their own. No sane person would go into his own garden and tell every Spanish bayonet in sight.

NATIONAL FRAME-UP.
Italy, in justifying her belated entrance into co-operation with the allies, intimates that the assassination by Servians of the Crown Prince of Austria and his wife was a frame-up on the part of Austria, who desired a casus belli against Serbia, not that she really had a grievance, but because a war with Serbia would injure Italian interests, and Austria ardently desired to do harm to Italy. Therefore the Emperor Franz Josef planned to have the Crown Prince and his wife murdered.
At this kindly accusation the Emperor of Austria is said to have lifted his hands and exclaimed:
"Oh, Holy Moses, what these Italians are whose own bad actions lead them to suspect the thoughts of others."

HONORS ARE EASY.
More than 2000 head of cattle that had "strayed" from Arizona across the Mexican line into Sonora were "returned" to the American side last week. The Mexicans who assisted the cows to stray into Mexico had been drafted into one or more of the patriot armies. This facilitated the operations of the "returners." It is claimed that the cowboys who did the "returning" did not represent the interests of the original American owners, and were simply moved by abstract justice to "abstract" from Sonora as many cattle—although possibly not the same cattle—as had been induced by Mexicans to take a trip into Sonora. Well, what matters it? Two thousand steers and cows and bulls were driven by Mexicans out of Arizona into Sonora, and an equal number were driven by Americans out of Sonora into Arizona. Both drives were made "in the wee small hours of the night." Honors and dishonors are easy.

SOME FIGURES FOR THE REAL ESTATE MEN.

According to the 1910 Census Report the valuation of agricultural products for Los Angeles county for 1909 was:
Cereals.....\$ 806,507.00
Other grains and seeds.....218,425.00
Hay and forage.....3,420,605.00
Vegetables.....1,255,093.00
Fruits and nuts.....6,731,532.00
All other crops.....2,278,626.00

Total.....\$14,720,884.00
San Joaquin county is given a total valuation in the same report of \$9,082,240.00. Los Angeles is thus the leading county in the State of California in the value of its agricultural products by \$5,000,000.00. It is also the banner county of the United States in its valuation of products.

According to the "Hand Book of Southern California," it exceeded in valuation the individual agricultural production of Maine, New Hampshire, Connecticut, Rhode Island, New Jersey, Delaware, Maryland, West Virginia, Florida, Oregon, Montana, Wyoming, New Mexico, Arizona, Nevada and Utah.
And, again taking the figures of the United States census as a basis, the area under irrigation in 1909 was only about 40 per cent. of that estimated by the Department of Agriculture as being susceptible to cultivation in that portion of the county between the mountains and the sea.

These figures were taken six years ago. Some idea of the increase in the six years may be gained from the fact that in 1909 Los Angeles county had 1,994,402 bearing citrus fruit trees and in 1914, according to the figures of the State Horticultural Commission, it had 3,348,500 bearing trees on 33,485 acres of land, the total acreage in fruit trees (bearing) being 49,793.

The census reports show that the 96,000 acres of citrus fruits in the State of California averaged a gross production of \$150 per acre; lands in strawberries, of which this county in 1909 had an acreage of 1390, produced \$300 per acre, gross; nursery products averaged \$400 gross per acre; while lands set to flowers and plants gave an average return of nearly \$1400. In comparison, the Year Book of the Department of Agriculture for 1914 shows returns from 108,000 acres of land devoted to truck farming in the vicinity of New York and Philadelphia, to average a little less than \$200 per acre gross.

Within the radius of thirty miles about Los Angeles there is, according to official figures, 360,000 acres of land susceptible to irrigation. With an average production of \$150 per acre, gross, this would give Los Angeles county a valuation of \$54,000,000 worth of agricultural production per annum—a figure not likely to be exceeded by any single county in the country.

There are in this county 757,985 acres of land classified as "farming"; in 1909, 145,586 acres of this land was under irrigation systems and 241,794 acres is listed as capable of irrigation. With the increased population, the increased value of agricultural products, the greatly enlarged markets furnished by the completion of the Panama Canal and the Los Angeles Harbor, and with the greatly increased average production due to improved methods and intensive cultivation, the possibilities for the future are practically unlimited.

Directly tributary to Los Angeles, the Coast district of Southern California, it is densely populated as the Mediterranean coast of France, a region similar in character, in climate and in area, would support a population of over 2,500,000. Other districts of this section of the State contain, according to the figures of the Conservation Commission and the United States Reclamation Service, at least 2,000,000 acres which are capable of irrigation. The productivity of these lands which were formerly classed as "desert," when brought under irrigation, has been amply proved by the results attained in the Imperial district, where the production of the single commodity, butter, has increased from 71,581 pounds, credited by the census returns for 1909, to 5,398,180 pounds in 1914, according to the report of the State Dairy Bureau.

Beyond this, Los Angeles and San Diego harbors are the most accessible shipping points for large portions of the States of Arizona, Colorado, New Mexico, Nevada, Utah and Wyoming. According to the published reports of government experts these States have altogether about 14,000,000 acres of land which can ultimately be placed under irrigation.
The vast possibilities of production when these lands are provided with water and placed under cultivation can be estimated, approximately, from figures supplied by the last census report which show that the average returns from an acre of irrigated land set to tropical fruits were \$184; in orchard fruits and grains, \$77; in potatoes, \$60; sugar beets, \$57; wheat, \$23; alfalfa, \$23. These figures were taken from the acreage and the production in the irrigated territory of the six southwestern States.

FLIPPITYFLOP BRYAN.

More than any other public man—or public woman—in Europe or America, has Mr. Bryan reduced to a fine point the art of pairing off with himself. It will not surprise those who know him best if he shall drop grape juice as a beverage, and instead of singing for an evening hymn the lines:
"Oh, then resign your ruby wine
Each smiling son and daughter
For there's nothing so good for the youthful blood
As the pure and sparkling water."
—he shall chant instead:
"Here's to good old whiskey
For it makes you feel so frisky.
Drink her down, drink her down, drink her down."

Mr. Bryan proclaims himself to be "a humble follower of the Prince of Peace," but intimates with a wink that he is really a rival of the Prince of Peace. His attitude is far from consistent with that of the Bryan of the Spanish War. That war gave to the world a grand panorama of heroic deeds. Hobson and his dripping heroes emerging like sea gods from the brine. Dewey smashing the gates of the Orient with his screaming shells and lightning Manila Bay with the wrecks of Spanish despotism. Sampson and Schley sending Cervera's fleet to the bottom and making the pennants of their ships the signals of the new world power that emerged from the battle smoke. Horseless rough riders charging against Spanish batteries. Little old fighting Joe Wheeler carrying the weight of sixty-two years up a tree to obtain a closer view of the enemy.
And above all, Bryan, imbued with the

Indiana Style for Crooked Politicians

spirit of militarism, which he now denounces, and with the eagles of the colonel glittering upon his shoulders, upraised his bright sword to the skies of Florida and charged gallantly against Chicago cannot be.

After war came peace. Spain was at our mercy. She was bankrupt and hopeless. She was utterly unable to pay a money indemnity, and following the custom of nations, following our own precedent in dealing with Mexico, we accepted as indemnity the islands of Porto Rico, Guam, and the Philippines, and we gave in payment for the forts and guns, and buildings and other public property in the Philippines, the sum of \$20,000,000.

These results were provided for in the Treaty of Paris. But Democratic Senators could not view with complacency the credit which a Republican administration would gain for negotiating the Treaty of Paris, and they opposed its ratification. It required fifty-eight votes in the Senate to ratify the treaty and there were but forty-five Republicans, and some of them were against it.

Bryan came to the rescue of President McKinley. Bryan was the previous and the prospective Democratic nominee for President, and his party looked to him for counsel. He went to Washington and by his labors seventeen Democratic Senators voted for and secured the ratification of the treaty, by a two-thirds majority of only two votes. Except for Mr. Bryan's efforts the Philippines would not have been ours; our ships carrying our troops would have sailed away from Manila, and every Democratic orator in the land would have howled denunciation of the Republican administration for its cowardly abandonment of the Orient empire that the valor of our soldiers and sailors had gained.

Having secured the Philippines Mr. Bryan again turned in his tracks, and again emulated the soldier who faced the enemy with the butt of his musket but discharged its contents into the comrades in his rear. He perambulated the country howling imperialism "from morn 'til dewy eve," and about the only measure of President Wilson's administration that has received the cordial and continued support of Mr. Bryan is that of "giving up" the Philippines.
The ex-Secretary of State so long as he lives will sing:
"Flippityflop goes the top of my hat
And so does the sole of my shoe;
I go first for this, I go next for that,
And to nothing on earth am I true."

STATESMAN WENDELL PHILLIPS.
Appropos of the unveiling of a statue of Wendell Phillips, a Boston writer admits that Boston today has no citizens comparable with Parker, Phillips, Sumner, Choate, Webster, Otis and Adams as "tribunes of the people," with the platform and the forum as thrones of power.
However opinions may differ with respect to the others whose names are mentioned, there is certainly no orator living or dead that compares with Wendell Phillips as a concenter of stinging, glowing, antithetical sentences.
Appropos of statues, his oration with respect to the statue of Daniel Webster has no equal as a specimen of virtue and vindictive English. He said—very unjustly—with respect to the godlike Daniel: "The words he dared to speak, his friends dare not repeat; the life he dared to live, his friends dare not describe, at the foot of his statue. He was mourned in coiled houses and marts of trade; but the dwellers in slave huts and fugitives along the highways thanked God when he died that they had one enemy the less."

Of Rufus Choate Mr. Phillips said: "He made it safe to murder, and of his health thieves asked before they began to steal." Of another Boston orator, he said: "He had as good a heart as could be made out of brass." He compared Hallett to the women of Egypt who "wholly naked are very careful to veil their faces," and of Edward Everett he said that he obeyed the English statesman's rule: "When you have nothing to say be sure and say nothing."

Perhaps the most audacious sentence uttered by Mr. Phillips was in Panett Hall at a mass meeting called to denounce the action of a majority of the Massachusetts State Senate in voting for a law to assist in the capture of fugitive slaves. "In this historic hall," said he, "erected by one who was himself a fugitive from oppression, I see, painted on the gallery front, the shield of your commonwealth, with the motto, 'God save the State of Massachusetts.' Now read the infamous measure against human freedom which passed your State Senate, then tear down that motto and paint in its place, 'God damn the State of Massachusetts.'"

National Editorial Service.

PAN-AMERICAN "FIRST FRUITS."

(CONTINUED FROM THE TIMES)

BY CHARLES H. PEPPER.
Former Trade Adviser United States Department of State.

THE Pan-American Financial Conference did not dissolve into thin air. The first fruits in the United States are giving evidences of tangibility. More important is the influence it exercised in South America and Central America.

There has been a time for digesting the proceedings of the conference and analyzing its work. Though this was not fully recognized in the United States, all Latin America was sitting in judgment on the gathering. The verdict is in the main favorable and the comment is friendly.
The view most commonly taken is that the visit of the delegates had an important educational effect and the need of education about the Latin-American countries is so frankly recognized in the United States now that no one takes offense at having his ignorance explained to him.

To them also, the conference, as it appears from the comment, has had an educational effect in the countries to the south of us. They are convinced that the era of a better understanding is at hand. The evidence of this conviction is found in the unconsciousness with which the better understanding is assumed as one of the results of the conference.

There is no concealment on the part of the Latin Americans that dollar diplomacy was in the foreground at the conference, and is expected to continue in the foreground. It is accepted as being henceforth the policy of the United States whatever national administration may be in power in Washington. The significance is that it is accepted as a helpful policy.

The return of the several finance ministers who came as official delegates was awaited with much interest in their several countries. It is not presumed that any of those ministers came to the United States without authority to negotiate loans. The assumption is that all of them had such authority and it is known that they entered upon specific negotiations.

Possibly too much was expected in the way of immediate results from these financial missions, yet what one of them described as "psychological progress" was obtained. As the outcome of the conference they found American bankers receptive and open-minded. The personal intercourse and the opportunities which were afforded for getting acquainted at the meeting of the different groups and in the general sessions were the means of bringing about this "psychological" condition.

The delegates who had financial missions found that prominent bankers hereafter would be "in" to them on their calls. Up to quite recently the prominent banker usually was "out" when some official from South America or Central America wanted to see him about a loan.

The financial missionaries found also some unfavorable conditions. The receptive state of mind of the bankers did not prevent these financial autocrats from pointing out that, with all European countries seeking loans in the United States and offering high interest, South American countries could not expect better terms.

The South Americans were able in most instances to counter this banking proposition with the evidence that their countries were solvent and were in no way likely to become involved in universal bankruptcy, such as threatens the European countries.

The South Americans further are confident that they made some impression on the banking mind in establishing the idea that loans and investments by people in the United States are the certain means of building up a market for commodities such as has been obtained by England and Germany. The tone of the comment is that their missionary efforts in this line give good promise for the future though they are able to show no early fruits.

The South Americans apparently have reported to their home governments that the spirit of inquiry on the part of the representative American business men and financiers whom they have met is directed especially to the exact nature of the markets open to the United States through the inability of the European belligerents to supply them. Some of them presented very poor information in various memoranda and reports. Others, lacking in this respect, are hastening to fill the deficiency.

Further evidence that the Latin Americans look upon the conference as having permanent results is in their preparation for the visit of the delegation of business men from the United States. This is one of the definite things to which the conference committed itself.

FLY CATECHISM.

Where does the fly live? Where there is filth.
Is there anything too filthy for the fly to eat? No.
Does the fly like clean food, too? Yes, and it appears to be his delight to wipe his feet on clean food.

Where is his favorite place of feeding? The manure heap and the garbage can. Where does the fly go after leaving the manure pile and the garbage can? Into the kitchen, dining-room, and bedroom.
Does the fly visit those sick with typhoid fever, consumption, ampalox, and cholera infantum? He certainly does, and may call on you next.

Is the fly dangerous? Yes, he spreads disease.
How does he spread disease? By carrying infection on his legs and wings, and by "fly specks" after he has been feeding on infectious material.

What diseases may the fly thus carry? He may convey typhoid fever, tuberculosis, cholera, dysentery, and "summer complaint."

Did the fly ever kill anyone? He killed more American soldiers in the Spanish-American war than the bullets of the Spaniards, and was the direct cause of much of the typhoid fever in Kansas last year.

Where are the greatest number of cases of typhoid fever and summer complaint? Where there are the most flies.

Where are the most flies? Where there is most filth.
Is the presence of flies therefore an indication of nearby filth? It most certainly is, and that is disgraceful.

How may we successfully fight the fly? By destroying or removing his breeding place, the manure pile, removing all garbage and making vaults flyproof, and by keeping our yards and alleys clean; by screening the house; by the use of the wire swatter and sticky fly paper.—[Chicago Tribune.]

A Prescription Doctor.

[Springfield Union.] It is likely that some irreverent persons, observing that Maryland University has conferred the degree of LL.D. on William Jennings Bryan, will be impudent enough to ask: "What laws did he ever doctor? And why?"

Pen Points: By the Staff.

Al Jennings, the evangelist, in the hands of "Hands up."

Speaking of a difficult surgical operation, there is the Laming of the Wilson wire in the line of fire.

German fourteen-inch guns are being sent Dunkirk. Salamanca and Buffalo are in the line of fire.

The effort to secure financial aid for the benefit of the Mexicans is not so much success. What is the answer?

The Prince of Wales is twenty-one years of age. But there will be no celebration of the event in Unter den Linden.

Both Villa and Carranza are making noise like a man who has had a cold. They ought to be accommodated.

The Sultan of Turkey has declined invitation to visit Asia Minor. He does not care to wander far from his own frontiers.

It is announced that 170,000 weavers in England will work the farms. What a thing in disguise, they will have no time to weep.

Zinc is going up rapidly. It may be necessary to take out our spelter teeth, replace it with gold and jewelry.

The first \$50 gold coins have been struck at the San Francisco mint. They are to succeed the buffalo nickel as common pocket pieces.

British troops are encamped in the supposed to be the site of the battle of Eden. Wonder how the apple core is there, just now?

If we are compelled to feed people all of Mexico until they plant and harvest a crop, the price of the "Walden" policy will be a big one.

The Democratic boss of Indiana, Taggart, has been indicted for frauds. The tail of the smooth rascal has been caught in the trap, it is hoped.

The sentence of Gen. De Wet in the African instruction is not a "voter's" "dry," as might be erroneously supposed.

The Chinese commissioners now in the United States are accumulating "fat" as "cats," even if hothouse is a way of trade extension. That might be some.

Meanwhile the Hon. Chase is saying a word. Chase can't be said to omit much conversation, and the wedding of Miss Genevieve is his latest editor.

Senator-elect Phelan is being elected as an official of the government, such as the government of the Dominican Republic. Another one of the "Democratic" to go wrong.

As we understand it, the war is the war counter and refuse to be the allies throw in a bit of the war with the war order. In a word, still sticks to her price.

Americans are not going to be summer. If a man with the eyes of the face of Life Young, the line of the safe from espionage and more, do the balance of us come to.

This is a great country. We are in the midst of the fact that the statesmen who can always be found, never, even when silence is golden, still. We are mentioning to.

Little Switzerland is turning out quantities of munitions of war, but we hear no protest against the commercial greed of that country on the part of any of our hyphenated politicians.

The auto is a great invention. A fellow with a broken leg is riding a second look, but if he is a fellow who is out of gasoline, he affords relief if it is possible. He is answered?

It is hard to imagine the beginning of the national democracy in the hands of the revolution would quickly for the state of the country's progress. What a friend the war has been to Democratic party?

The anniversary of the battle of Gettysburg is being celebrated by the Prussians who fought under Frederick Blucher when he saved the army under the Duke of Wellington.

Democratic managers have twelve questions with a view to public sentiment as to the nomination of President Bryan, and not a single one of them is to be agreed that he is to be the party.

The British "Charge" the Americans left Mexico City in a hurry. A caravan of forty men, drawn by mules, left at 4 o'clock for Pachuca, sixty miles from the capital. The caravan was about 11,000 to the various parties was enabled to pass through the various belligerent.

A second contingent of American cars left the following day. The party was composed of twenty men, drawn by mules, and was about 11,000 to the various parties was enabled to pass through the various belligerent.

It seems depression over the business of the country. He thought that he was a man. He stopped his own car. He didn't refuse to stop. He didn't refuse to stop. He didn't refuse to stop.

He stopped his own car. He didn't refuse to stop. He didn't refuse to stop. He didn't refuse to stop. He didn't refuse to stop.

He stopped his own car. He didn't refuse to stop. He didn't refuse to stop. He didn't refuse to stop. He didn't refuse to stop.

He stopped his own car. He didn't refuse to stop. He didn't refuse to stop. He didn't refuse to stop. He didn't refuse to stop.

Life's Gentler Side Society, Music, Song and the Dance—The Theater Cities and

MOVEMENTS IN SOCIETY.

THE local Biennial Board of the National Federation of Musical Clubs will extend a reception to the officers, delegates and visiting artists of the Ninth Biennial at Hotel Alexandria. The hour is for 8 o'clock.

The reception line will consist of: Mrs. Frank Garrett, president of the local biennial board; Mrs. W. H. Jamison, vice-president of the western district of the National Federation of Musical Clubs; and Mrs. Robert Wankowski, chairman.

Assisting are to be Mrs. J. J. Abramson, Mrs. Carolyn Alchin, H. D. Alfonso, Arthur Ashbrook, Mrs. J. H. Ballagh, Dr. J. W. Barlow, Mrs. W. S. Bartlett, Mrs. A. C. Bartlett, Mrs. H. V. Baxter, Mrs. Thilo Becker, Thilo Becker, C. E. Behrmer, Mr. and Mrs. W. A. Benjamin, Mrs. G. J. Birke, Mrs. Arnold Burkleman, Mrs. F. W. Blanchard, F. W. Blanchard, Miss Yerna Rivlin, Mrs. Louis Bordwell, Mrs. E. R. Brainerd, Dr. Norman Bridge, Carl Bronson, Miss Mollie Adella Brown, Alfred Butler, Fern Campbell, Mrs. J. H. Catherwood, Miss Beanie Chapin, W. J. Chick, Mrs. G. F. Clark, W. A. Clark, Jr., Miss Vertice Cohen, Frank Cohen, Miss Fannie Dillon, Mrs. E. L. Doherty, Ernest Douglas, Mrs. Estelle Heart-Dreyfus, J. P. Dupuy, Miss Katherine C. Elbert, Charles F. Edson, Fred Ellis, Dr. Charles H. Ervin, Mrs. J. T. Fitzgerald, Mrs. Henry P. Filat, Mollie H. Flint, Mrs. Katherine Forest, Miss Cora Toy, J. H. Francis, Andrew Francisco, Mr. and Mrs. J. Bond Francisco, Mrs. Cecil Frankel, Miss Carrie Stone Freeman, W. M. Garland, Mrs. Frank Garrett, Miss Clara Gorman, C. E. Gilhouse, Miss Margaret Goetz, Mr. and Mrs. L. F. Gottschalk, Jackson Gregg, Homer Gruesz, Harry E. Hamilton, Mrs. J. Roth Hamilton, G. Allan Hancock, Mrs. Frank H. Hanna, Mrs. Minnie Hance, Frank J. Hart, H. W. Hoffding, Mrs. Louis Hoffman, Hill, Mrs. W. I. Hollingsworth, Miss Grace James, Mrs. W. H. Jamison, Mrs. Spoddard Jones, Mrs. L. Jones, Miss Berceford Joy, Mrs. Jennie Kempton, Miss Helen Louise Kimball, Hugo Kirchhofer, Rudolf Kopf, Eduardo Lebeget, Miss Jessica Lawrence, Dr. Andrew E. Lobinger, Harry C. Lott, William Lott, Mrs. W. E. Mabey, Mrs. Hugh Livingston Macdonald, Mrs. E. M. Macdonald, Mrs. Annie Martin, Mrs. E. W. Martindale, Mrs. Dean Mason, Morton F. Mason, Mrs. D. C. McCann, Mrs. Jesse Phillip McKnight, Mrs. Biedens McNamara, Mrs. J. J. Moore, Jr., H. Norton, Miss Mary L. O'Donohue, Mrs. J. G. Ogilvie, Walter Hastings Olney, Miss Myrtle Ouellette, Mrs. E. C. Paulsen, Gertrude Parsons, Ronald Paul, Charles E. Pemberton, Miss Frieda Paycha, Miss Eva Frances Pike, W. J. Porter, J. R. Poutin, Mrs. Walter Raymond, Mrs. Norma Rockhold Robbins, Mr. M. H. Robinson, Louis Rovinsky, Mrs. Gertrude Rosa, Miss

"KINDLING" NEW BURBANK PLAY.

Elizabeth Murray Hymack Orpheum Headliners.

"Wormwood" is Pleasing at Miller's Theater.

Charlie Chaplin in "Work" at Palace of Pictures.

Billie Burke, playing "Jerry" at the Mason, is drawing large houses, as she always does. Her present comedy is one of the most delightful in which she has ever appeared. Miss Burke's engagement closes on Saturday night.

Burbank.

"The Girl of Youth," one of the most successful farces ever staged, will run the remainder of the week at the Burbank.

"Kindling," with Marjorie Rambeau in the leading role, will be the offering next week, opening with the Sunday matinee. This piece has been a tremendous success both in New York and on tour, and Miss Rambeau's performance promises to be a most artistic and finished one, especially as she played the role for several weeks in the East.

Members of the Burbank company who will have congenial roles are Forrest Stanley, Lillian Elliott, Edmund Love, Ida S. Leon, Grace Travers, Donald Brown, Louis Benson, James Corrigan, James K. Applebee and others.

Morocco.

Kolb and Dill are playing a successful engagement in "This Way Out" at the Morocco Theater, the production being the best ever staged by the popular comedians. So great has been the demand for seats that the piece will run a second week.

On June 24, Fallon and the entire company, in fact, have won the crowds.

"Long Letty," the new musical production by Oliver Morton, which Charlotte Greenwood and Sydney Grant will have the leading roles, will be presented for the first time at a Monday matinee on July 5, when the popular favorites will take part, including Walter Catlett, Billie Rock, Helma Laura, May Booley, Lela Bliss and others.

Orpheum.

Headline announcements for next week's Orpheum bill include Elizabeth Murray and Mr. Hymack. The former has fame from her "High Kick" success, as well as from starring in "Madame Hobbes." Mr. Hymack is a mysterious being who changes his garb and personality right before the audience, defying them to tell how it is done.

Others will be Mary Elizabeth, a New York society girl in stories and songs; Broderick Johnson, an acrobat, and the holdovers, including Adelaide and Hughes, Nat M. Willis, Roxy and Lea, and the Havemann trained animals.

Empire.

Miss Bertana, a singer of international fame, will headline next week's Empire bill, opening with "The Girl of Youth." Other attractions will be Wilkens and Wilkens, acrobatic dancers; a new feature, "The Girl of Youth," starring the Three Dixie Sisters, singers; La Rosa and Mayfield, comedians; and the Three Alas, acrobats, together with the usual photoplays.

Pantages.

Richard the Great, the chimpanzee whose abnormal intelligence has been the subject of scientific discussion for the past few months, will be seen at Pantages next week, this being his first appearance on the coast.

Other attractions of the new bill will be Winona Winters, the "Cheer-up Girl"; Florence Rayfield, beautiful acrobat; the musical comedy, "The Girl of Youth"; Fern, Bigelow and Menahan in acrobatic, and Rodney Hanous and Marie Nelson in "Conscience."

Hippodrome.

This week's Hippodrome bill is pleasing greatly. "The Five Dancing Kids" are making a special hit, as is also Melbourne MacDowell in his sketch, "The Right Man."

The feature next week will again be Melbourne MacDowell in his present offering.

Other attractions will be Enoch and Burg, in their oriental operetta, "Blossoms"; Belting and Snyder, two Los Angeles boys, in a snappy pianologue and patter act; and other acts.

Repubic.

"Caught in the Snow," the tabloid musical comedy being offered by the "Frita Frita" Follies, will be together with the nine big vaudeville acts which compose the programme, making a big hit with the large audiences at the Republic Theater this week.

The musical comedy has a humorous plot, many funny lines and abounds in late music and dances, giving excellent opportunities for good work to the principals and vivacious chorus.

The Mudge-Morton Trio, who get delightful harmony out of several different instruments, and the Morton-Jewel Trio with his singing, dancing and juggling divide the honors on the vaudeville part of the programme.

Chief Eagle Wing, with his sports and pastimes of the Indians, proving a big novelty drawing card. The Wakefield Sisters, Judith Reusch, Stanley's Goats and comedy motion pictures complete the well-balanced bill.

"Mission Play."

The Alpha Chi Omega Sorority will hold its national convention in Los Angeles next week and has arranged for a special performance of the "Mission Play" on Tuesday night.

The convention will be held at the Hotel California and Southern California members will attend in a body. They are not going to be exclusive with the local members, and they will come every college woman to attend with them. They hope to make a real college women's night of it.

Miller's.

"Wormwood," a powerful story, forcefully and artistically portrayed, which is drawing large houses to Miller's this week. John Salspfort, as the unhappy Pauline, gives effective renderings of their respective roles.

The added feature, the balance of the week is the first of "The Romance of Elaine" series, featuring Pearl

SAINT-SAENS' OWN.

Wonderful Instrumentation of His Historic Concert at the San Francisco Palace—A Brilliant Review.

BY JEANNE REDMAN.

EXPOSITION GROUNDS, SAN FRANCISCO, June 23.—Is it not an inspiring thing to see a hardy old genius of 80 years direct his own composition which he has composed especially for an occasion of festivity and rejoicing that would be out of the ken of most of his contemporaries?

Camille Saint-Saens played to standing room only at Festival Hall last night, and as he walked onto the platform, accompanied by George Stewart, the director of music, the audience rose to greet him, and as the people stood applauding him, he bowed to the throng of admirers.

Number was the newly-composed "Hall California," with which he celebrates the Panama-Pacific Exposition, which he came to the city from Paris to play, and which is a labor of love and an expression of admiration. It is not unusually great. It is too conglomerate. It celebrates the joining of the Atlantic and Pacific by the completion of the Panama Canal. Saint-Saens' music is a great success. The parts played in the great achievement by the "water republics," the United States and France; he connects the two countries with the music in the large cities of this country. Ruth Roland and Henry King, the two most strikingly famous names, appear to better advantage.

Garrick.

Dainty Mary Pickford is drawing big crowds to the Garrick Theater this week, where the several pictures of the "Mary Pickford Revue" give her many excellent opportunities to shine in her own inimitable way. Many of the plays which made her famous are in the Revue, which fills the stage with a background of scenery, completed by the eighth installment of "The Diamond from the Sky," with Lottie Pickford.

Maestro.

The stirring scenes of "Fighting Bob" and the acting of the local favorite, Orrin Johnson, are making big crowds at the Maestros Theater, where the South American play heads an interesting bill. This week's "Fighting Bob" is a play which is being presented for the first time at a Monday matinee, as shown by the realism of the battle scenes. The story deals with a young South American who graduates from college in his country and then hurries home to assist in putting down a revolution, in which he succeeds after many exciting scenes. The play is a strong local interest in the play.

Optic.

A comedy bill, headed by a three-reel Vitaphone feature, "Love, Snow and Ice," is being shown at the Optic Theater. The three-reel feature brings a cooling wave to sunny California, as it is taken during an eastern winter, while an ice carnival was in progress. Wally Van, the Vitaphone "straight comedy" star, is featured in a number which has a humorous plot, that moves swiftly through scenes of snowballing and sledding.

Woodville.

"The Darkening Trail," a great human story of the Northwest, is the thrilling drama being presented at Woodville. The play is a story of a man who is lost in the wilderness and is rescued by a woman who is a pioneer. The play is a story of a man who is lost in the wilderness and is rescued by a woman who is a pioneer.

Clare's Auditorium.

"The Island of Regeneration" is proving a monster drawing card at Clare's Auditorium. The play is a story of a man who is lost in the wilderness and is rescued by a woman who is a pioneer. The play is a story of a man who is lost in the wilderness and is rescued by a woman who is a pioneer.

Pleasing Recital.

Pupils of Florence Johnson Studios give some from Shakespeare and other work in public programme.

One of the pleasing events of the many school affairs that have occupied the present week was the closing recital of pupils of the Florence Johnson Studios of Expression and Dramatic Art.

This event took place at the Trebor music-room Monday night. The stage was a mass of authority forms, built in the style of an ancient Shakespearean palace. Small girls in white seated the guests and older boys and girls, in costume, provided the interesting programme.

The numbers all gave great pleasure by the finish and simplicity of the delivery of the students, while the costumes were appropriate and beautiful.

Scenes from "Ingonarr," "Merchant of Venice," "Julius Caesar," "Romeo and Juliet," "Hamlet" and "Leah" were interspersed with musical numbers and lighter selections, the programme ending with a comedy sketch.

Mrs. Florence Johnson, who has long been connected with the teaching of dramatic art in Los Angeles, has recently opened her new studios of dramatic art at No. 771 West Sixth street and, in addition to the regular classes, will maintain a summer school.

MY CAPTAIN MADE A VICTIM.

Act of Accused.

Forged a Check, is the Charge.

San Francisco, June 23.—At the request of the State Bank of Pasadena, a search has been instituted by the police for Robert McPherson, who is believed to have stolen a check for \$10,000 from the State Bank of Pasadena, and is now believed to be in San Francisco.

McPherson is a man of about 35 years of age, of medium build, with dark hair, and is believed to be a native of California. He is believed to be a member of the State Bank of Pasadena, and is believed to have stolen the check from the bank.

McPherson is believed to be a man of about 35 years of age, of medium build, with dark hair, and is believed to be a native of California. He is believed to be a member of the State Bank of Pasadena, and is believed to have stolen the check from the bank.

CLUB IS HOST
TO MUSICIAN

FESTIVAL DINNER IS GIVEN
DOMINANT.

Many Attend "Fairland" Dinner
Given by Members of Local Musical Organization. Friends, Owners and Interpreters are Among the Guests.

"Fairland" was transferred to the Shell Clubhouse last evening, where the dominant club gave the musical festival dinner. At least a great deal of atmosphere of the prime opera was there. And it had for its backdrop the warmth and good cheer of the welcoming which were extended to the visiting delegates at the convention of the National Federation of Music Clubs.

The object of the dinner was to give the guests who were everywhere in the spirit of the festival, which opens today. The best evidence of this object was accomplished by the fact that the dinner was a success.

Among the speakers were the following: "Fairland," Alfred Hertrich, conductor of the opera; F. W. Blanchard, president of the American Opera Association; Eugene Kinney, president of the National Federation of Music Clubs; and others.

THEATERS
MADE A VICTIM.

Machine Skills, Crashing into Phone Pole, Seriously Injured. Water.

Wet streets and a sliding machine caused an accident yesterday which resulted in a dangerous injury to Peter Mirich, 25 years old, a resident at No. 247 West 11th street. His skull was fractured and his arm injured in a manner that may result in complications.

SOUTHERN CROP REPORTS.

(LOCAL CORRESPONDENCE)
CORCORAN, June 23.—A field of 240 acres planted to rice by George Hawn of Colusa on the Thorne Hill ranch two miles north of Corcoran is at present about eight inches high and is growing rapidly.

Mr. Hawn is an experienced rice farmer, who last season raised 7000 bags of rice on 105 acres near Colusa. He has selected the San Joaquin Valley because of its long, hot growing season, which affords ample time for late planting and an opportunity to harvest before the winter rains set in.

SOUTHERN CROP REPORTS.

(LOCAL CORRESPONDENCE)
CORCORAN, June 24.—At the request of the State Bank of Pasadena, a search has been made for Robert McKee, believed to have absconded with \$5,000 from the Pasadena branch of the bank.

Mr. McKee, who was a partner in the Pasadena branch of the bank, was last seen at the Pasadena branch of the bank, where he was believed to have absconded with the money.

PYTHIANS OF TROPICO
TO HAVE CARNIVAL QUEEN.

(LOCAL CORRESPONDENCE)
TROPICO, June 23.—A whirlwind campaign has been started by the Knights of Pythias of Tropic to select a queen to reign over the Carnival next Thursday. It was not the intention of the Committee on Arrangements at first to elect a Queen, but public sentiment became so strong that at the ninth hour the committee reconsidered.

Five candidates were immediately nominated, and the election was set for tomorrow, the polls closing at 5 o'clock. The five candidates whose names are now in the ring are Miss Blanche Shaw, Miss Amy Miller, Mrs. E. V. Coleman, secretary of the Pythian Sisters; Mrs. B. F. Cook, president officer, and Mrs. C. L. Theadaker. All five candidates are strongly supported and an exciting contest is anticipated.

WORK TO PREVENT
BLOW AT PARTIES.

(BY DIRECT WIRE—EXCLUSIVE DISPATCH)
FRESNO, June 23.—The first copies of the referendum petition against the nonpartisan law were received in Fresno this morning by Frank H. Short, a leader in the Republican ranks of California, and a meeting of Republicans and Democrats has been called for Thursday, at which time plans will be made for circulating the petitions in Central California.

Two meetings have already been held at which the nonpartisan law was picked to pieces. There is a strong line-up here against the measure. Other copies of the petition will be received in the next two days and will be immediately placed in circulation.

John Hancock—"Father of the Revolution"

UPON the Declaration of Independence his name may be read without spectacles. His signature was the first subscribed to the world's most famous State document. In the most realistic sense John Hancock pledged his life and his fortune to the cause of the Revolution. He was one of the richest men in the colonies, holding investments in banks, breweries, stores, hotels, and also owning a fleet of vessels. The seizure of one of these precipitated the Boston massacre. In Revolutionary days and until his death he was a popular idol. When it was proposed to bombard Boston, though it would have resulted in greater personal loss to him than to any other property owner, he begged that no regard be paid to him because of his financial interests. While Hancock did not sign the Constitution of the United States, he used his great influence in its behalf, which awakened the gratitude of Washington. "He was prepossessing in manner, and passionately fond of the elegant pleasures of life, of dancing, music, concerts, routs, assemblies, card parties, rich wines, social dinners and festivities." Until the end of his life the people of Massachusetts delighted to honor him. In the stirring events preceding the Revolution he was one of the most active and influential members of the Sons of Liberty. To this tireless worker for American Independence Liberty was the very breath of life. He would have frowned upon any legislation which would restrict the natural rights of man, and would have voted NO to prohibition enactments. It was upon the tenets of our National Spoken Word that Anheuser-Busch 58 years ago founded their great institution. To-day throughout the length and breadth of the Free Republic their honest brews are famed for quality, purity, mildness and exquisite flavor. Their brand BUDWEISER has daily grown in popularity until 7500 people are daily required to meet the public demand. Their brand BUDWEISER beer by millions of bottles.

Visitors to St. Louis are especially invited to inspect our plant—covers 400 acres.

LANGER IS AFTER FOUR NATIONAL SWIMMING TITLES.

Lady Langer working on the turns.

Holder of the national 440 and 880-yard records practicing in the L.A.A.C. tank. Lady used to get faked because he couldn't take the turns properly. Now he is getting ready to enter all the races from the 220 to the mile in the national championships at San Francisco.

FRANKLIN

365 Days Ahead in Efficiency"
The Car With
the Longest Life

Man who uses his energy the most efficiently is the one who uses his car the most efficiently. The automobile that uses the energy stored up in the most efficient lasts longest. The economical use of gasoline represents waste, and the waste of energy represents wear and tear. The Franklin car, on a single gallon, the average obtained by the Franklin car in the May 1st National Test, shows how the Franklin car cuts down the waste of friction, heavy weight and power development.

The proof of the durability and quality of design, material and workmanship of the Franklin, and every other car, is shown by the mileage per gallon.

OUR NOBLE ATHLETES ARE EVEN.

ANGELS SCORE WITH FREEDOM.
Two Outbursts Capture the Struggle
Though the Tigers Fight to the Last.
Slim Love Allows but Four Bingles.

BY HARRY A. WILLIAMS.
Slim Love was out in all his glory yesterday, and by clever dealing from the left elbow routed the Tigers, 3 to 2. This evening the famous series and leaves the result a matter of some doubt. Most of the critics, however, have figured that the team which takes three out of the remaining five games is likely to win the series.

Slim enjoys one great advantage over his batting opponents, and that is altitude. He pitches from a great height—so great that the guy at bat hasn't much of a chance for his life. When Slim pitches it is like dropping bombs out of an airplane. It looks like he would hit the batter on top of the head with the ball every time he lets go of it.

Slim did not pitch in his bare feet as had been planned. This was because his feet had improved, or rather because the trouble in his feet had gone to his hands. His hands were the only things which he could not control yesterday. He did his best to restrain them, but in spite of this one of his paws got in front of a throw from the outfield which probably would have cut off a run at the plate had it been let alone. No effort will be made to drive the trouble out of Slim's hands. If that were attempted it might go to his head, and that would be very serious.

CHARTE GAME.
The Angels won by utilizing two (Continued on Fourth Page.)

TRAVERS OWNS GOLF TROPHY.
PHILADELPHIA, June 23.—Jerome D. Travers, open golf champion, today won the Lynwood Hall cup at the Huntingdon Valley Country Club by defeating in the final round Max Marston of Baltimore, 3 to 1.

Travers' victory gave him permanent possession of the gold trophy which was placed in competition in 1904 after Harold R. McFarland in 1905 had won the original cup offered fifteen years ago. Travers won a leg in 1908 and a second two years later. The cards: Travers—Out 4 3 5 4 3 4 5 6—39 In 3 5 2 4 3 7 4 2—35—73 Marston—Out 5 4 6 5 4 5 5 6—41 In 3 4 2 6 4 4 4 2—35—74

WHY LUDY LANGER EXPECTS TO CAPTURE FOUR EVENTS.

LUDY LANGER of the Los Angeles Athletic Club intends to win four national swimming titles in one week. The four honors that Mr. Langer has picked out to cop are the 440-yard, 880-yard, one mile and long-distance swims.

These four water events will take place in the yacht harbor of the exposition grounds at San Francisco during July. The races will be held over a course 320 yards in length.

Langer is the only swimmer of class in the United States who is accustomed to long distances in open water.

The eastern contestants are all used to short tanks. Very few of the Atlantic pools are more than one hundred feet in length.

Mr. Langer already holds the national 440 and 880-yard records. These were held in comparatively short tanks, and the swimmer was at a disadvantage. He has the desirable knack of getting better as the distance increases.

There will be one day between each of the northern races. This day Langer will be in good shape for each one. He is practicing daily at the L.A.A.C., and is getting better all the time.

Verily, the club professional, will go north also and will enter the exhibition events.

RUGGLES IS VICTIM OF LARSON IN HANDBALL.

WHO? C. E. Larson? Why, he's the handball expert who ruined Charles Ruggles' championship hopes yesterday afternoon. And he did this very neatly and without a great deal of visible effort. One of the four Los Angeles Athletic Club champs is out of the running and another is sure to go out next Wednesday. On this date Dunnigan and Lacy got together and wind up the semi-finals.

It only required two matches to decide the winner. The first one was a 21-15 affair and the second 21-12. The first contest was one of the best ever staged on the local courts and the two men were so evenly matched that it was a long-up who would finally take the honors. In the last game Ruggles weakened a little and his opponent did not have so much trouble knocking him down.

There has been a lot of argument among the local handball fans as to the condition of Ruggles and many have argued that his lack of training during the last few months would mean his defeat. This seems to be the case, for Larson certainly played the best game yesterday.

There are but two matches to be played in the championship class. These are between C. E. Larson and the winner of the Dunnigan-Lacy mix-up. All three men are wonderful players and it is hard to guess the winner.

The second frame has been run off with the exception of four or five matches. The lists have been narrowed down to a very few men in each class. The whole thing will be over inside of three weeks and the handball world can rest in peace for another six months or so.

The second round results: Championship class—Courtney Lacy defeated Joseph Amestoy, 21-15, 21-6; Ray Dunnigan defeated Stan Mitchell, 21-12, 21-10; C. E. Larson defeated Charles Ruggles, 21-15, 21-14.

Class A: Robert Newmark defeated Arthur Howard, 17-21, 21-7, 21-6.

Class B: A. C. Therberg defaulted to Adolph Frankel; C. E. Glass defeated E. L. Chase, 21-12, 22-17, 21-10; M. McGuire defeated Ernie Clark, 17-21, 21-7, 21-15.

Class C: John Neighbors defaulted to Les Mead; R. T. Jones defeated M. Eusterman, 12-21, 21-3, 21-12; Jim Reynolds defeated J. A. Crocker, 17-21, 21-7, 21-10.

A.A.A. BARS RACER'S WIFE.

CHICAGO, June 23.—Miss Lacy's place is at her husband's side, but not when friend spouse is burning up the Speedway at the rate of 160 miles an hour. At least this is a ruling issued by the American Automobile Association, in control of the 500-mile motor derby billed for Saturday and the edit is a bitter disappointment to Mrs. Eddie Van Ralte, wife of a Sunbeam pilot.

But for the iron-clad order prohibiting women folks from participating in the classic, either as a driver or mechanic, Mrs. Van Ralte would be seen at her husband's elbow throughout the long battle with time.

CHANGE IN CARD CREW.

Ivan Hulsman Dropped from the Shell.
Because He Couldn't Learn New Stroke.
Rogers Takes No. 5, Blocher Rows Bow.

NEW YORK, June 23.—Coach Guereña today announced the only change that Stanford's crew has undergone since it was named for the race with Washington and California last April.

L. C. Rogers, a junior from Ventura, replaced Ivan Hulsman. Rogers will row at No. 5, Blocher, who held that position, having moved up to bow. This change was made temporarily for the time Tuesday, but today Guereña stated that the alteration was permanent. Hulsman, a veteran at a Stanford oar, failed to get the long swing at bow that his shell mates have been perfecting. So Blocher, also a veteran, was delegated to handle the end sweep.

A QUESTION.
Although yesterday's work showed great improvement it is a question how the change will effect the running qualities of the eight in the race. For Blocher is nine pounds heavier than Hulsman, and weighs 184. Rogers, who was on the substitute list, saved his first race last year in the freshman boat. He is one of the fastest of the eight.

The god of good weather has favored the Cardinal men. Outside of the first steaming day, fairly cool winds with occasional showers have been the lot of the westerners. Guereña has declared himself more than satisfied with the performance of his men.

OPINION.
Rice, Columbia's coach and authority on crew racing, said yesterday that he would not be surprised to see Stanford finish well up. He noted great improvement in the Cardinal rowing.

Guereña has expressed displeasure at the attitude taken by the eastern newspapers when the Stanford men rowed on Sunday. In regard to the adverse criticism Guereña said: "It was absolutely necessary for the boys to get the workouts in view of the long trip and six days off the water and that fact should be mentioned out of fairness to us."

The crew is comfortably located at Highlands across the river from Foughkeeps, where each man has a bunk of his own. Guereña reports his charges in the best of health.

THE DOPE.
With the big regatta of the Intercollegiate Rowing Association but four days off, the sporting world has focused its attention on Foughkeeps a hundred miles up the Hudson from New York. There will be freshmen and junior races, but the big event is undoubtedly the varsity race in which the eight of Columbia, Cornell, Pennsylvania, Stanford and Syracuse are entered. It is difficult to pick a favorite, but the general run of opinion classifies the varsities in the order just named.

MAJORS HAVE WON MOST EXTRA-INNING GAMES.

Taken Eight Out of Twelve Overtime Combats, Los Angeles Second—Tenth Seems to be Favorite for Deciding Games that Go Beyond the Ninth.

BY HARRY A. WILLIAMS.

LEAGUE fans have realized that their little old league called for on numerous occasions. There have been extra innings served with- out comment, whatever. There have been twenty- two extra innings, and all but one have been fought to a de- cision. On May 7, Salt Lake and Los Angeles were unable to decide the game, and with the exception of the twelfth, ad- journed the fight at some future date.

THEY. The extra-inning game is a terrible institution, de- spite the fact that it is a ter- rible game. It is a game of attrition, and it is a game of attrition. It is a game of attrition, and it is a game of attrition.

ELECTRIC NEAR BEING WRECKED.

BEARDSLEY CAR TRYING TO BREAK MILEAGE RECORD MAKES LONG TRIP.

Down near Santa Ana yesterday a gas car driver trying to save just a few seconds attempted to cut in front of the Beardsley electric car that is out of a world's mileage record, and came very near causing a serious accident. A fender was torn from the car, but fortunately no damage was done to the electric.

Mrs. M. M. Miller of Crenshaw boulevard was the observer. The route selected for today will be through Alhambra to the San Gabriel boulevard, then via Downey to Long Beach and after covering the drive around the beach town return to Los Angeles over the regular Long Beach route. Then a side trip until the century mark is reached if possible.

FASTEST RUNNER OUT WITH DEFT.

OSGOOD CLAIMS TO HAVE RUN HUNDRED IN LESS THAN RECORD.

William Osgood of New York is the latest athletic find in Southern California.

Osgood claims that he has been clocked on the 100-yard dash in something around 9.5 seconds. He challenges anyone in the world to a race to prove his point.

While an amateur he defeated Port- land, the English champion and several other famous sprinters.

LOPSIDED GAMES IN BIG LEAGUES.

MANY RUNS AND LARGE NUMBER OF HITS FEATURE GAME.

June 9 in the American League was marked by two very lopsided games, the White Sox beating the Yankees 15 to 0 and the Tigers beating the Red Sox 15 to 0. Clonks for the White Sox held the Yankees to two hits. Both of the Sox in four times up had a home run, a triple and a single.

LEE FOHL SUCCESS AS BALL MANAGER.

KNOWS A BALL PLAYER AS WELL AS THE NEXT ONE.

Bernie Holand, Tiger pitcher, predicts that Lee Fohl will be a success as manager of the Cleveland Ameri- cans. "Fohl was manager of the Ar- kansas team when I broke into the 'big league ball,'" says Holand. "He is one wise fellow. I think he knows a ball player about as well as any manager in the business and, for one, I will be surprised if he doesn't make good right through the season."

Tom Githens, lightweight pugilist, may begin a law course in the fall.

Slim Love.

Who has been moving down the enemy with great regularity and few hits recently, as for instance—yesterday.

BASEBALL NOTES.

Al Koch, vice-president of the Ven- ice club, who returned from Salt Lake yesterday, says that the Tigers played in the hardest kind of luck last week. "But for the worst kind of break, they would have taken five out of eight instead of the other way about," he said. "Salt Lake is a wonderful baseball town, and there is a fine bunch of sportsmen back of the club."

Koch says that Bill Piercy changed in his delivery while in Salt Lake and found that it made him more effective. He is delivering the ball with a free overhead movement, and has cut out trying to "snap" the ball. Piercy has shown more stuff than any young heavier seen in the league in several years, and barring some setback should get a trial in the majors next season.

The Los Angeles club had nothing new to issue yesterday regarding the strange case of Hiram Jasper, but optimism seemed to prevail. It was learned that Powers is negotiating for the services of Doc Ayres of the Washington club. However, he cannot be secured from that club direct, as Griffith seems to be peeved be- cause the Los Angeles club called off its working agreement with Washing- ton. He claims that he failed to get anything in return for Hughes, Love, Gedeon and others. He was to have received Kid Ehmke, but the latter dropped to the Feds, all of which was no fault of Los Angeles. Griffith has asked for waivers on Ayres, who is a right-hander. Combs has re- fused to waive, and in case he ac- cures Ayres will sell him to Los An- geles.

President Malar will return today from his ranch, where he has been entertaining a number of horsemen. He will assist in the final prepara- tions for the Hogan testimonial, and it is unlikely that he will leave any definite statement regarding the re- moval of the club until after that event has been staged.

Ed Klepper, ex-Tiger, pitched a beautiful game for the White Sox against Cleveland yesterday. He has had some trouble in getting in con- dition, according to reports from the East, and Rowland has been a bit backward about starting him. Ed started out like he intends to make up for lost time.

KAHLER ALLOWS ONLY ONE HIT.

Beavers Beat Seals Twice in One Day.

Fielders Let Pop-fly Drop Between Them.

Ducks Make Five Runs with Two Men Out.

BY A. P. NIGHT WIRE.

SAN FRANCISCO, June 23.—Port- land took a double-header from San Francisco today, 8 to 3 and 1 to 0. In the first game the Seals were lead- ing, 5 to 1, in the ninth inning and had two outs on Portland, but a group of fielders huddled together could not decide who should take a pop fly and the ball bounced on the ground un- touched. After that the Seals faltered and Portland added five runs for the inning. Kahler walked four Seals in the second game but allowed only one hit. Killaly also was good but weak- ened in the fourth long enough to let the Beavers bat out their winning run.

First game:

	AB	R	E	R	P	O	A	E
Portland	10	8	0	0	0	0	0	0

COLLEGE BOYS HIKE DOWN COAST.

BERKELEY STUDENTS ON WAY TO SAN DIEGO, STOP OVER HERE.

A couple of University of Califor- nia students reached this city yester- day on a twenty-three-day hike from San Francisco to San Diego. They made the 101-mile trip from Santa Barbara in two days and will spend several days in Los Angeles.

Dukey Heron, son of E. A. Heron, the Oakland traction magnate, is staying at the home of C. Last, and Calbert Judkins, son of T. C. Judkins, had some trouble in getting in con- dition, according to reports from the East, and Rowland has been a bit backward about starting him. Ed started out like he intends to make up for lost time.

The two fellows really walked all the way. They did not ride or take short cuts and they guarantee a bona- fide journey.

BEAR RUGBY SCHOOL FAILS.

BERKELEY (Cal.) June 23.—Interest in Rugby football at the University of California has declined with such suddenness as to cause the abandonment of a course in Rugby at the uni- versity summer session. A year ago the same course, given by Dr. T. B. Hols, former Rugby star at Stanford University, was attended by fifty students, most of them high school coaches.

11 to 7.

FOUR BUM-BEE HUMBLER FALL.

OAKS HIT BALE HARD ENOUGH TO WIN.

Morgan, Lacey, Pittory and J. Williams are Victims of Omslaught. Prough Hauls Much on the Base- ball but His Teammates See that He Gets by Safely.

BY A. P. NIGHT WIRE.

SALT LAKE CITY, June 23.—Morgan, Lacey, Pittory and J. Wil- liams were easy for Oakland today and the locals lost the second game of the series 11 to 7. Prough, on the mound for the visitors, hurled good enough ball to win, although hit hard. New hit safety three times, while Orr and Zacher each secured four hits. Score:

Oakland by Inning:

Inning	1	2	3	4	5	6	7	8	9	Total
Oakland	0	0	0	0	0	0	0	0	0	0
Salt Lake	0	0	0	0	0	0	0	0	0	0

Salt Lake by Inning:

MUNICIPAL GOLF CLUBS ORGANIZE.

The Municipal Golf Club of Los An- geles yesterday met and considered a proposition from the Municipal Golf Club of San Francisco to organize a coast confederation of these organiza- tions to include in addition to these cities, Portland and Seattle and pos- sibly Vancouver and Victoria.

The local club acted favorably on the matter. The idea is to have a yearly tourna- ment similar to that held for the Tom Morris trophy, as well as to extend courtesies to visiting golfers from other cities in the proposed associa- tion. It is planned to offer a hand- some trophy for the annual event.

Three consecutive wins will give per- manent ownership of the trophy. The Municipal Golf Club at its meeting yesterday also decided to give three monthly competitions to be held in July, August and September, with a valuable trophy for each event. The exact dates for these competitions will be announced within a few days.

PITCHER LEONARD WILL SHOW STUFF.

President Lannin of the Red Sox announced on June 7 that suspension had been lifted from Pitcher Hub Leonard and that the champion giver of interviews would again be per- mitted to show his stuff in the game on the diamond. Leonard lost no time trying to prove that he still has a ten thousand dollar arm and a ten cent head.

TOUCHARD FALLS IN TENNIS MATCH.

BY A. P. NIGHT WIRE.

ORANGE (N. J.) June 23.—In a match filled with phenomenal recur- ries, C. L. Johnston, Jr., former Am- herst intercollegiate champion, beat G. F. Touchard, national indoor title holder today in the third round of the Middle States champion tourna- ment. The match on the third courts of the Orange Lawn Tennis Club went three sets, the score being 2-6, 6-4, 6-7.

H. A. Throckmorton, the boy who won the Princeton intercollegiate title here today in the third round of the Middle States champion tourna- ment. The match on the third courts of the Orange Lawn Tennis Club went three sets, the score being 2-6, 6-4, 6-7.

Miss Molla Bjurstedt, national champion, won easily at the start of the women's singles. Miss Clara Camel did likewise.

TENNIS SINGLES FOR HUNTINGTON.

The Huntington Tennis Club will stage a tournament July 17 and 18. Men's singles will be the only variety of entertainment, but this will be enough by itself to fill a large-sized bill. The matches will be played on the Hotel Huntington courts.

Some of the best players around here are already signed up and many more will turn out before the hotel closes. All contestants should notify Frank Donley or Mr. Sins- baugh before the 16th of July.

Among those already present are Allen Barber, Bob Varial, Fred Adams, Whittle Maca, Cliff Reed, Glen Morris, Ralph Sinsford, Walter Bowers, Frank Dwyer, Claude Wayne, Nat Brown, Earl and Char- once Barker and Mr. Snyder.

Larry McLean says he has been shed \$5000 in three years by various base- ball clubs.
